The Markets4you Deposit Bonus is a Markets4you promotion where clients can obtain credit bonuses into their trading accounts. With the Deposit Bonus you can trade with larger volumes and get back up to 17.5%* of the spreads and commissions on accounts. Once generated turnover on your account is equal to credit bonus, then you will get this bonus amount on your balance.

1:500 - 1:1000	✓	✓	
1:1000 - 1:2000	✓		

3. How does the bonus program work

3.1 By depositing funds into your trading account through your Trader Room, you can select the percentage (%) of the Deposit Bonus you wish to receive. The **Deposit Bonus** will then be added to your trading account as **Credit**.

Example:

You deposit \$1,000 and choose a 25% bonus.

Your equity becomes \$1,250 (Balance: \$1,000 + Credit: \$250).

Your balance remains \$1,000, while the bonus amount (\$250) is added as Credit.

3.2 You are trading as usual on your trading account generating turnover. For each trade that meets the MTP (Minimum Trade Points) conditions, a portion of spread / commission goes fulfilling your Deposit Bonus

Example:

You open a trade on EUR/USD (Classic Account) with a volume of 1 Lot.

The total spread for this trade is \$20.

A share of the spread – $20 \times 0.175 = \$3.50$ – goes toward your Deposit Bonus.

- 3.3 Once the accumulated trading turnover contributions reach 100% of your Deposit Bonus amount (in this example, \$250), the bonus is converted into real funds and automatically added to your trading balance.

3.4 Additional Conditions:

3.4.1 If multiple Deposit Bonuses are active, all trading turnover will first apply to the earliest activated bonus until it is fully met. The next bonus will then begin to accumulate.

3.4.2 You can check the progress and current status of your Deposit Bonus at any time in your Trader Room.
